# how to PRINT

To print, make sure you select File – Print.

The screenshot shows a print dialog box with the following sections:

- Pages to Print:** Includes radio buttons for 'All' (selected), 'Current page', and 'Pages' (with a text input field containing '1 - 49'). There is also a 'More Options' link.
- Page Sizing & Handling:** Features a tabbed interface with 'Size' (selected), 'Poster', 'Multiple', and 'Booklet'. Below the tabs are radio buttons for 'Fit' (selected), 'Actual size', 'Shrink oversized pages', and 'Custom Scale: 100 %'. There is also a checkbox for 'Choose paper source by PDF page size'.
- Orientation:** Includes radio buttons for 'Auto portrait/landscape' (selected), 'Portrait', and 'Landscape'.

Please make sure to select FIT or Fit to Page

It will open up to more printing options. It may not exactly look like this but it will be very similar. Please make sure you select, **FIT** and NOT actual size. By selecting **FIT** the images and words will fit on the page.

The screenshot shows the bottom of the print dialog box with two buttons: a white 'Cancel' button and a blue 'Print' button.

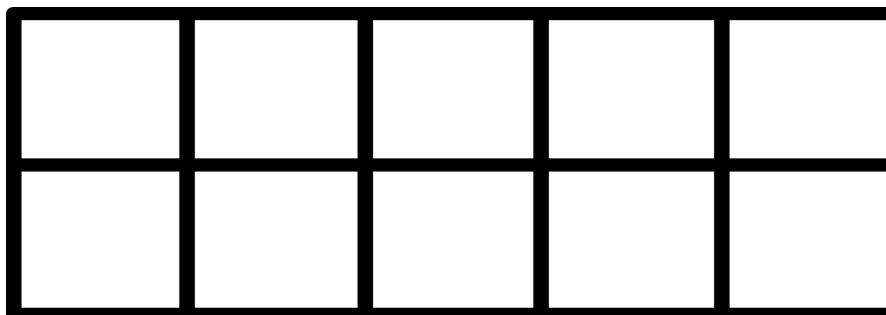

Select PRINT and print the document.

Please let me know if you have any questions by contacting me via email.
