

Build and Write

Materials

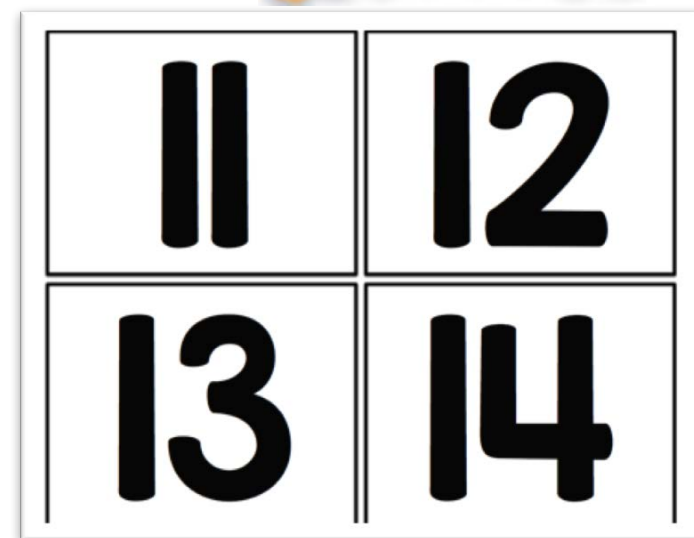

- Number cards
- Dry erase markers
- Small counting objects

Directions: Students pick a number card and build that number using math manipulatives (i.e., bears, counters, cubes).

Make sure students build the number by making a group of ten and some more. Then, they write a number sentence or an equation. Have students turn and talk to their partner and tell them about the number they built. ("19 is 10 and 9 more.")

Pick a different number and repeat the steps above.
